

For CSU Alumni with academic concentrations in
Supply Chain, Logistics, Operations, & Quality Management

A division of Allevity Employer Solutions

Supply Chain Manager - Chico, California

Job Status: FT/Exempt

Pay Range: \$90,000 - \$100,000 annually

Industry: Manufacturing/Industrial Machinery

Reports To: President

Summary

Our client is a successful mid-market manufacturer of industrial production equipment and is based in beautiful Chico, California. Established over 40 years ago and serving domestic and international customers, their success stems from manufacturing high quality products and having an exceptional team to support its clients and suppliers.

We are in search of an experienced and highly skilled Supply Chain Manager to organize, coordinate, and oversee all activities relating to the sourcing, procurement, production, and materials movement of company goods. Reporting to the company president, this critical role will have oversight of the company's overall supply chain/logistics strategy and operations in order to maximize process efficiency and productivity.

What You'll Do

- Functional areas of responsibility include material procurement, production planning and scheduling, inventory management and warehouse control - including all shipping and receiving functions
- Collaborating with other departments and stakeholders to identify and maintain resources needed to establish and provide an effective and lean supply chain
- Sourcing materials needed for production operations at a competitive price, quality, and value standard so as to reduce direct material cost while improving performance through an enhanced vendor network
- Developing policies and procedures that facilitate improved performance across both the internal and external supply chain
- Coordinating engineering changes, product line extensions, or new product launches to ensure timely and orderly material and production flow transitions
- Monitoring vendor performance with controlled metrics and qualifying new sources as required in order to continually improve the supply base
- Developing formal production schedules with KPI's that gauge the capacity and performance of the entire production operation and provide delivery commitments to customers based on evaluation of lead times and manufacturing performance

What You'll Need To Be Successful

- Bachelor's degree in business or related field
- 3-5 years managing or supervising the supply chain function in a manufacturing environment
- Thorough understanding and utilization of ERP/MRP systems in a manufacturing environment
- Well-versed in capacity planning and scheduling in a job-shop or other manufacturing setting
- Aptitude to organize methods, procedures, and metrics that will be central to driving organizational change and performance within the company
- Experience with analyzing financial data related to inventory management
- Superior managerial and supervisory skills
- Ability to travel and assess vendor practices and value systems
- Proficiency with Microsoft Office Suite or related software

What Our Client Offers

- Starting Salary of \$90,000 to \$100,000 annually (commensurate with experience)
- Benefits package including: Health insurance (medical, dental, prescription), Life Insurance, 401(k), PTO & holidays

About The Location

Chico is located in northern California only three hours from the bay area, with an estimated population of 103,000 and home to California State University, Chico. It is known for its relaxed college culture, is surrounded by orchard crops and rice fields, and offers many outdoor recreational opportunities, including one of the largest municipal parks in the nation, Bidwell Park. Bidwell Park provides a wide array of hiking and mountain biking trails, picnic areas, swimming holes and is a city park like none other.
