Stria

HUMAN SOLUTIONS. CLOUD SOLUTIONS.

Stria is a business process outsourcing (BPO) company whose purpose is to positively impact lives and livelihoods. Stria uses cloud-based technology to automate business processes for our clients. Primarily, this work centers on building and/or integrating cloud-based software applications. For processes that cannot be automated, Stria's staff provide hands-on services in areas such as scanning, mail processing, records management, data entry and more.

The company serves several vertical markets including agriculture, energy, government, health care, financial services, and retail.

The company is a privately held, forward-leaning organization that offers flexible schedules, good pay, a superb culture, and the opportunity to make a difference in the world. An ability to work in a fast-paced environment and strong attention to detail are essential. More information can be found online at www.Stria.com/careers.

Position Title

Analytics Developer

Position Summary

Our goal at Stria is to leverage the latest Analytic tools and processes in order to deliver unparalleled service to our customers. To help us achieve this goal we are searching for an entry level Analytics developer to join our growing Analytics Team. In this role you will have the opportunity to wear many hats but much of your focus will be using an Analytics Platform to visualize datasets that you have generated using SQL and/or Python. This position will also require the soft skills necessary to communicate highly complex information to non-technical customers in a way that is easy to understand. We are looking for a highly motivated self-starter to help our customers get the most out of their data.

Required Qualifications (Knowledge, Skills, Abilities)

- Ability to learn new software applications and cloud services quickly and independently.
- Excellent written and verbal communication skills
- Experience with SQL and Python.
- Experience with one or more Relational Database Systems (SQL Server, PostgreSQL, Oracle, etc.)
- Comfortable working in a dynamic environment while managing multiple concurrent projects.
- Strong analytical and problem-solving skills.
-

Preferred Qualifications (Knowledge, Skills, Abilities)

- Exposure to one or more Analytics Platforms (PowerBI, Tableau, Spotfire, Zoho Analytics, etc.)
- Familiarity with one or more of the following AWS Services (AWS Lambda, AWS Step Functions, AWS S3, AWS Athena, AWS API Gateway)
- Experience building data pipelines
- Experience with one or more NoSQL Database (MongoDB, AWS DynamoDB, etc.)

Physical Demands and Work Environment

The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this position. Reasonable accommodations may be made to enable individuals with disabilities to perform the functions. While performing the duties of this position, the employee is regularly required to talk or hear. The employee frequently is required to use hands or fingers, handle or feel objects, tools, or controls. The employee is occasionally required to stand; walk; sit; and reach with hands and arms. The employee must occasionally lift and/or move up to 25 pounds. Specific vision abilities required by this position include close vision, distance vision, and the ability to adjust focus. The noise level in the work environment is usually low to moderate.

Note

This job description in no way states or implies that these are the only duties to be performed by the employee(s) incumbent in this position. Employees will be required to follow any other job-related instructions and to perform any other job-related duties requested by any person authorized to give instructions or assignments. All duties and responsibilities are essential functions and requirements and are subject to possible modification to reasonably accommodate individuals with disabilities. To perform this job successfully, the incumbents will possess the skills, aptitudes, and abilities to perform each duty proficiently. Some requirements may exclude individuals who pose a direct threat or significant risk to the health or safety of themselves or others. The requirements listed in this document are the minimum levels of knowledge, skills, or abilities. This document does not create an employment contract, implied or otherwise, other than an "at will" relationship. The company is an Equal Opportunity Employer, drug free workplace, and complies with ADA regulations as applicable.
